

PRD — Clothie Dynasty Website

Product Name

Clothie Dynasty

Product Type

Luxury Women's Fashion Brand Website + Editorial Experience + Ecommerce Store

1. Vision

Clothie Dynasty is not simply an online clothing store.

It is a digital fashion publication and luxury brand experience that allows visitors to understand the identity, story, values, and purpose of the brand before exploring products.

The website should feel like browsing a premium fashion magazine that seamlessly transitions into a luxury shopping experience.

The goal is to create emotional connection first and commercial intent second.

Users should leave feeling:

"This brand understands a certain kind of woman."

before they think:

"I want to buy this dress."

2. Brand Positioning

Core Values

- Individuality
- Purpose
- Confidence
- Feminine Strength
- Elegance

- Storytelling
- Authenticity
- Craftsmanship

Brand Personality

Clothie Dynasty represents women who:

- Dress intentionally
- Value quality over trends
- Express themselves through fashion
- Lead with confidence
- Appreciate beauty and meaning

The website should reflect these qualities.

3. Product Goals

Business Goals

Primary

Increase product purchases.

Secondary

Build brand recognition.

Tertiary

Create emotional attachment to the brand.

Long-Term

Establish Clothie Dynasty as a recognizable luxury fashion house.

4. User Goals

When a visitor arrives they should be able to:

Discover

Understand what Clothie Dynasty stands for.

Connect

Feel emotionally connected to the brand story.

Explore

Browse collections naturally.

Trust

Believe the products are premium.

Purchase

Complete purchases easily.

5. Target Audience

Demographic

Women

Age: 25 - 45

Income: Middle to high income

Interests:

- Fashion
 - Luxury lifestyle
 - Personal branding
 - Entrepreneurship
 - Professional careers
 - Creative industries
-

6. Site Architecture

Main Navigation:

Home About Contact Store

Store should be visually separated from the other navigation items.

This reinforces that shopping is part of the experience, not the entire experience.

7. Information Architecture

Home

Purpose: Create emotional connection and brand desire.

Sections:

1. Hero
 2. Brand Statement
 3. The Woman We Design For
 4. Story & Purpose
 5. Featured Collection
 6. Fashion Film Section
 7. Craftsmanship
 8. Editorial Showcase
 9. Newsletter
 10. Footer
-

About

Purpose: Tell the story behind the brand.

Sections:

- Mission
 - Vision
 - Founder Story
 - Design Philosophy
 - Brand Identity
 - Craftsmanship
 - Future Direction
-

Contact

Purpose: Allow communication and inquiries.

Sections:

- Contact Form
 - Email Information
 - Social Media

Discover Our Story

Brand Statement

Purpose:

Introduce the emotional core of the brand.

Layout:

Large editorial typography.

Minimal supporting text.

The Woman We Design For

Purpose:

Define the ideal customer.

Large statement-based content.

Magazine-like presentation.

Photography should dominate.

Story Section

Purpose:

Communicate meaning behind the brand.

Layout:

Asymmetrical.

Photography crossing section boundaries.

Large editorial storytelling.

Featured Collection

Display:

3–6 collections.

Large photography.

Minimal text.

Strong visual hierarchy.

Fashion Film Inserts

Embedded fashion clips.

Placed between content sections.

No audio autoplay.

Short loops.

Purpose:

Increase immersion.

Craftsmanship Section

Focus:

- Materials
- Design process
- Attention to detail

Goal:

Increase perceived value.

10. Visual Design System

Color Palette

Primary: White

Secondary: Soft Lavender Purple

Text: Charcoal Black

Accent: Muted Gray

Typography

Headings:

Elegant Editorial Serif

Characteristics:

- Luxury
- Feminine
- Fashion-oriented

Body:

Modern Sans Serif

Characteristics:

- Clean
 - Readable
 - Minimal
-

Layout Philosophy

Avoid:

- Traditional boxed sections
- Corporate grids
- Heavy borders

Use:

- Organic layouts
 - Diagonal dividers
 - Fluid transitions
 - Layered imagery
 - Editorial spacing
-

11. Imagery Guidelines

Photography must:

- Feel luxurious
- Feel natural
- Feel confident

Subjects:

Women wearing premium dresses.

Lighting:

Soft.

Natural.

Editorial.

Images should occasionally extend beyond their containers to create visual dynamism.

12. Ecommerce Requirements

Product Listing

Display:

- Image
- Name
- Price

Minimal distractions.

Product Page

Includes:

- Large gallery
- Product description
- Materials
- Sizing
- Care instructions

- Loyalty Program
 - Ambassador Program
 - AI Styling Assistant
 - International Shipping
-

18. Success Metrics

Brand Metrics

- Time on site
- Pages per session
- About page engagement

Commerce Metrics

- Product views
- Add to cart rate
- Checkout completion rate
- Revenue

Experience Metrics

- Bounce rate
 - Returning visitors
 - Newsletter signups
-

Final Product Statement

Clothie Dynasty should feel less like an online store and more like entering a carefully curated fashion world.

Every page should communicate elegance, purpose, individuality, and confidence.

The user should experience a luxury editorial journey first and a shopping experience second, with both blending together seamlessly.
